

MISSION STATEMENT

Long Island Children's Writers and Illustrators provides a collegial and nurturing environment for published and unpublished writers and illustrators. The members will provide meaningful critiques and constructive feedback on works-in-progress, with mutual support and respect between those seeking a response to their work and those offering it. We aim to foster the development of technique: to strive for the use of fresh, imaginative, and honest language, to work towards the strongest melding of words and art, and to hone the skills of our craft in order to produce publishable works of literary and artistic excellence for children.
